

How to replace this PDF

Upload a new file to the media library.

Dashboard > Media > Upload

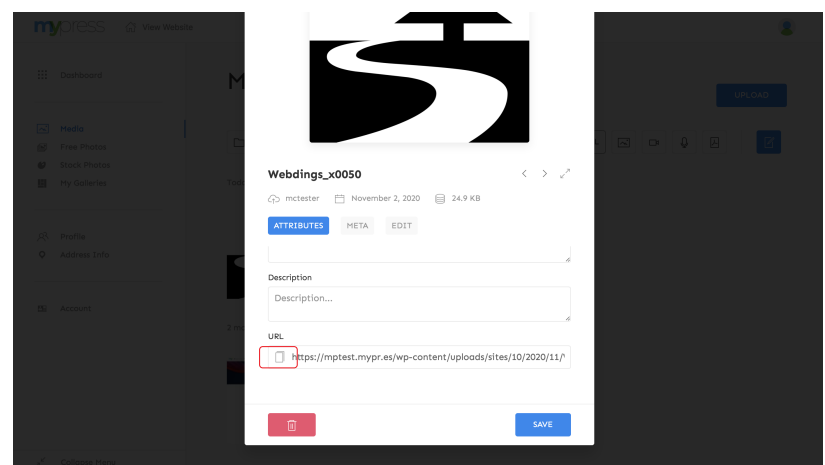

After uploading the file, click on it to bring up the details window.

Scroll down the details window to the URL field, click the icon on the left to copy the link to this file.

Now you can use the link for any button or link on front-end.

For more info on how to add links on front-end: <https://mypress.tawk.help/article/edit-and-format-text>
